Re: 3% Healthcare Contributions Resolution

Date: January 22, 2018

This weekend, the Office of Retirement Services, also known as ORS, released emails to those employees who earned wages during the time frame of July 1, 2010 and September 3, 2012. If you were an employee during this time frame and did not receive the sent emails, please contact ORS directly at (800) 381-5111. Please be advised that wait times may be longer than usual.

The body of the email contained both the contribution and interest gained amounts that will be refunded back to the employee. This amount is considered the pre-tax amount and is not the final pay out to the employee as tax implications are still in the process of being addressed. After taxation, payouts will be less than the amount listed in the email sent to you by ORS.

The amounts are being refunded back to the district by end of business today, but can take up to 60-90 days before refunds are processed. During this time, we encourage all employees to ensure their information is accurate to conduct a smooth and efficient process. If you or someone you know worked in a different district during this time frame, please ensure your information is accurate at that district.

An updated FAQ's page has been provided on the ORS website: [PA 75 and 3% Healthcare Contributions FAQs](#).

If you have further questions, please reach out to the Office of Retirement Services (800)381-5111 or the Payroll and Benefits Office (313)827-3100.

Thank you.
